Yes, its the little things that hurt. A common, everyday measley little fly will make an orthodox Christian swear forty strokes to the minute, while if the same man had his head taken off by a July tornado he wouldn't say a word about it.

No man ever got rich by trying to make others believe he was "The only," or the only one who knew anything. You cannot climb the ladder of success by treading on others' corns. Keep off the corns and don't knock. You're not the only. There are others, and they have brains, and know something as well as you do.

A correspondent wants to know when to use the words "shall" and "should." Never use "shall" when you should use "should" and never use "should" when you should use "shall." In short we should always say "should" whenever we should and never say: "shall" when we should say "should. Is that plain enough Miss Correspondent?

When you hear a man sneering at a local paper because it is not big, cheap and newsy as the city papers, you can safely bet he does not squander any of his wealth in assisting to make it better, and that generally the paper has done more for him than he has for it. The man who cannot see the benefits arising from a local newspaper is about as much value to a community, or a town, as delinquent tax list.

For a good, everyday household angel, give us a woman who laughs. Home is not a battlefield, nor one long unending row. A trick of always seeing the bright side, if the thing has no bright side, of shining up the dark one, is a very important faculty and one of the things no woman should be born without. We are not all born with sunshine in our hearts, as Irish prettily phrase it; but we can cultivate a cheerful sense of humor if we only try.

Many more towns die for the want of confidence on part of the business men and lack of public spirit, than from opposition of neighboring towns and adverse surrounding.

If you want to know all you have ever done, and many things you never thought of doing, just run for office, and you'll get your character aired in good shape.

Don't knock. Help yourself along by becoming popular, and push your friends with you. It's very easy. Be a good fellow and soon you'll have a procession of flowers. No man ever helped himself knocking other people down in character and business.

Slander is a blithing sirocco—the base, foul, cloven footed slander—like the loathsome worm leaves a path covered with slime. How truthful it has been said: "Living, he is a traveling pest and worse, dying impenitent, his soul too deeply stained for Hell." How often do we hear the Slanderer's tongue warbling his song of disgrace on our streets.

Mrs. Eliza Draper.

Funeral services for Mrs. Eliza Draper, who died at her home near Gallatin Tuesday morning, were held at the Christian church here Wednesday morning, followed by interment in the local cemetery. Services were conducted by the Rev. J. T. Draper, who paid a beautiful tribute to the life of the deceased in the presence of a large gathering of friends.

Mrs. Draper would have been 82 years old in August, and had spent the most of her long and useful life in the vicinity of Flynn's Lick, where she lived before going to Sumner county several years ago. She was a devoted wife and mother, and a fine Christian character, a faithful member of the Christian church for more than 60 years. She is survived by one son, T. J. of Gainesboro, and daughter, Mrs. B. J. Franklin of near Gallatin, with whom she lived, and a number grand and great grand children.

Mr. and Mrs. B. J. Franklin of near Gallatin, and their son, Dr. John Franklin and wife of Chillicothe, O., and Jim and Sam Williamson of Davidson county, accompanied the body here for burial.

People are accustomed to talk or crimes as a terrible thing and say that their son had fallen dreadfully when he has not fallen at all. He was raised that way Right here in this town and vicinity some fathers and mothers are educating their children in the requirements of first class devils. Of course they do not mean to do so, but they are none the less. Boys are let run wild, are let carous on the streets until after midnight and never put work. It is as natural for the idle boy to go to the bad as it is for them to live. The influence is that way. Instead of the pure God hallowed atmosphere of home many boys are let breathe the unwholesome air of a crowd of smokers and listen to oaths sworn more often than prayers are offered at home. Parents are responsible for their boys and should surround them with attractive home influences. Train a boy to go in good com-

pany and he will go there; let him go wild and his associates will be anything but good.—Exchange.
